Manager; remaining two staff yet to be recruited

Locations where we intend to work

- Taraya
- Aita El Fokhar
- Riyak
- Baaloul

What is the
change we would
like to see?

Municipality level

- Construction and rehabilitation of 45 KM water supply network
- Equipping 3 boreholes
- Designing and installing 3 solar water pumping systems

Regional level

Regional level

Reduction in Non-Revenue Water (NRW) for all 3 Water Establishments (WE)

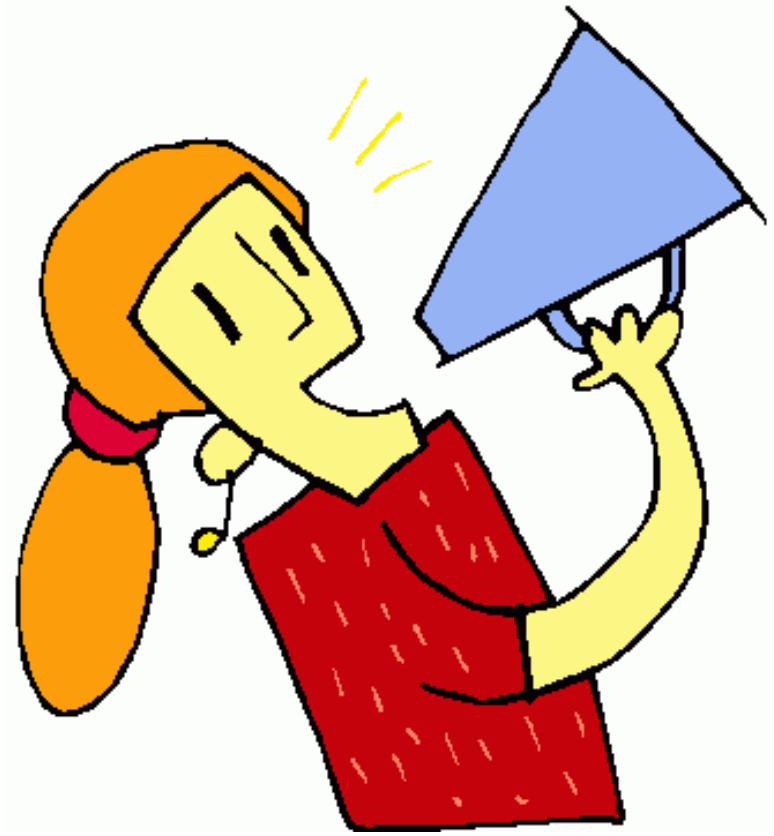

- Cleaning and geo-referencing of customer databases
- Customer relations package for the WEs
- Awareness raising on water subscription and water conservation

Regional level

Reduction in Non-Revenue Water (NRW) for all 3 Water Establishments (WE)

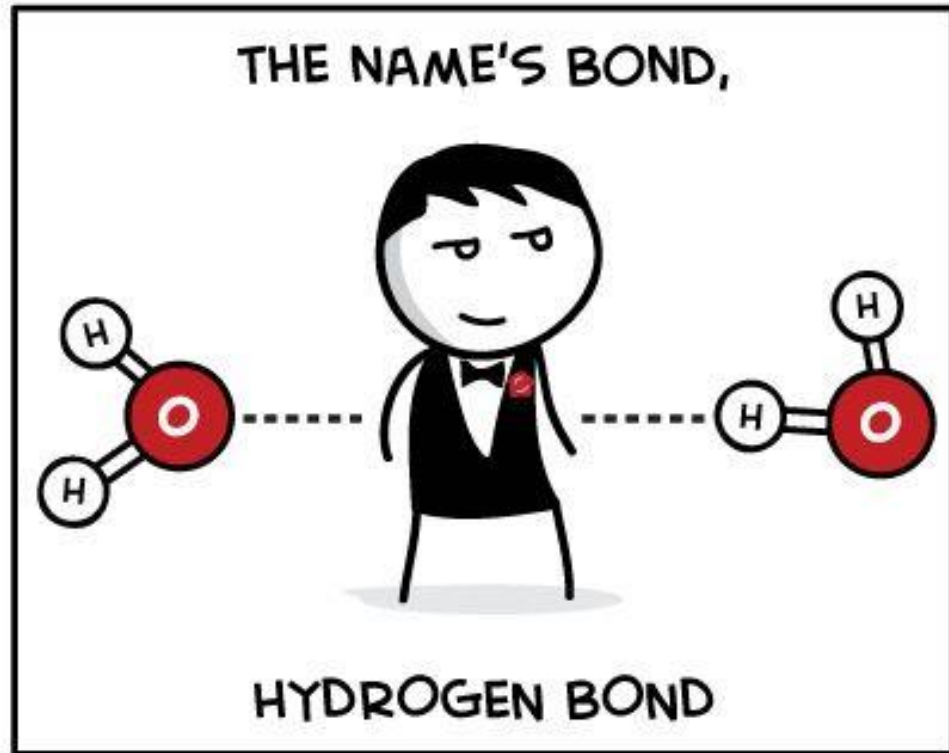

- Recommendations for a water tariff approach
- Capacity building through training, equipment and seconded personnel
- Supporting the national database on NRW

National level

National level

- WE coordination
- Learning visit to Jordan Water Utility for NRW approaches
- Knowledge generation including on solar water pumping technologies
- Advocacy
- MADAD-WASH actor coordination

VICTIMS OF CIRCUMSOLAR

Thank you
