HawkaMaa-EU project overview

Aim of the project: WASH assistance to support water governance and public water and wastewater services in Lebanon for host and refugee communities

1. WEs' capacity to provide water and wastewater services is strengthened

2. Participation of civil society and local authorities in sector governance is increased

3. Refugee protection space is improved

Host and refugee communities in Lebanon have improved access to sustainable WASH services

- The project targets a total of 144,000 individuals across Lebanon, namely South, Bekaa, North and Beirut and Mount Lebanon
- Infrastructure upgrades in host and refugees communities
- Capacity-building of Water Establishments on infrastructure management
- River basin management to promote multi-stakeholder water management in North Lebanon
- Expansion of LEWAP to include LNGOs and CSOs

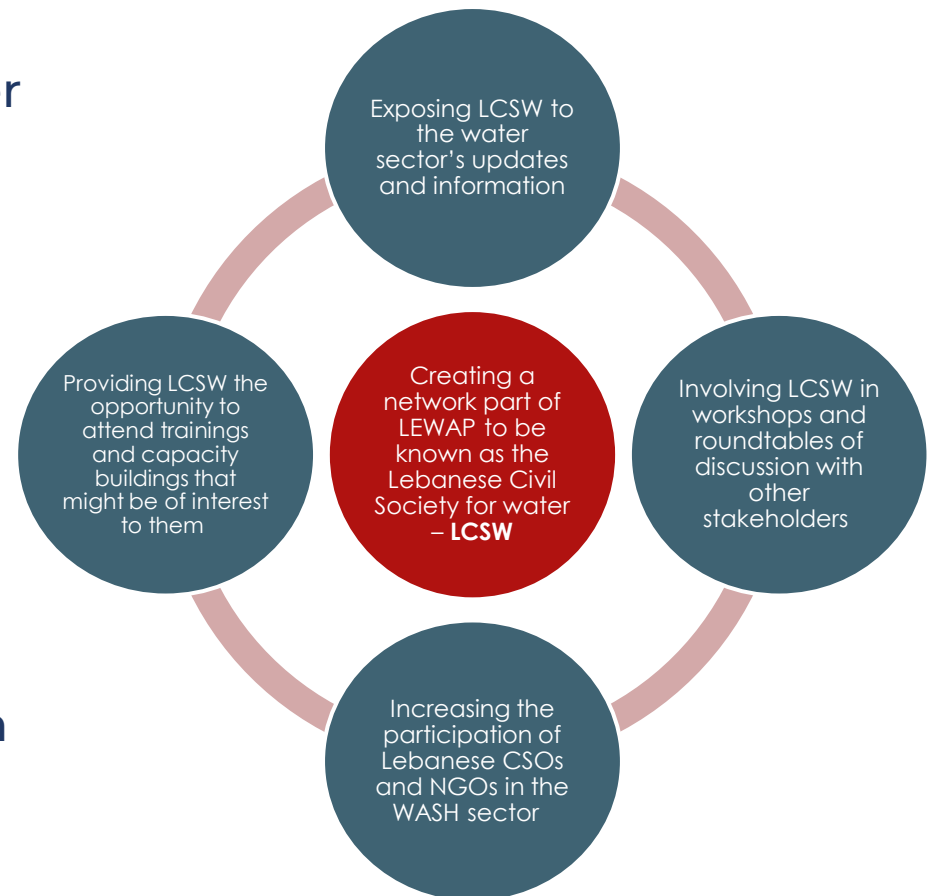

18/04/2023

HawkaMaa-EU

What is LCSW?

- The Lebanese Civil Society for Water is a network of local organisations engaged in water and sanitation activities in Lebanon, who want to develop their expertise and operational capacities.
- It is integrated into the LEbanese Water Actors Platform (LEWAP), which groups all stakeholders working in the water and sanitation sector in Lebanon.

Aim of this network

ACTED

Topics addressed so far

- 5th meeting – presentation of different topics for members to choose from + agreeing on cost efficient and sustainable solutions for water storage and supply
- 6th meeting – first session on cost effective and sustainable solutions for water storage and supply: cewas presented different technologies and ACTED presented the RWH system
- 7th meeting – second session on cost effective and sustainable solutions for water storage and supply: focus on MiyahCon consortium; CISP presented their water balance exercise in Bint Jbeil and WW-GVC presented Water Civil Hub project
- 8th meeting – presentation of the MoEW Recovery Plan

Workshops conducted so far

- **RBM workshop – 14 November 2022**
 - presenting the concept of IWRM and River Basin Management as well as the projects ongoing or accomplished in that regard
 - collecting feedback and discussion from attendees on two main points:
 - Their knowledge in regards to IWRM and their feedback on ongoing projects in the country
 - Their feedback in regards to the methodology of program of measures developed by ACTED
- **Role of NGOs – lessons learnt from MADAD projects – 30 November 2022**
 - LCSW was consulted to provide feedback on sector management structure, advocacy, funding and partnership; results were presented to all actors
 - 360 consulting presented their study on NGO added value in the sector, they tackled 4 aspects: mission driven approaches, capacity building, social engagement, adaptability and learning and efficiency
- **Public Public Partnership – 7 February 2023**
 - Nahnoo presented the results of their ongoing study on Public Public Partnership and the MoU tool developed that govern the relationship between RWEs and municipalities
 - Representatives from Union of Municipality of Dahye and Union of Municipalities of Zgharta-Ehden presented their situation and intervention from EBML and NLWE happened as well

Discussion points

- What do you know or think of Public Public and/or Public Private partnership to improve service delivery, elaborate (positive or negative feedback)
- Any positive/negative experience of these kinds of partnership that you were exposed to in your community, elaborate
- Any recommendation from your side on how you see things working to improve service delivery
