

LEbanese Water Actors Platform

LEWAP

pS-Eau

Lebanon
Network

Created in 2017 upon initiative of pS-Eau, **LEWAP** is an information and exchanges platform for water and sanitation actors in Lebanon. The platform supports and strengthens cooperation initiatives.

Objectives of the platform

- Collect, treat, and spread information about water and sanitation in Lebanon
- Support international cooperation initiatives
- Facilitate multi-stakeholder exchanges

Tools available

- A website to share information and news of the sector
- A projects' atlas
- A documentary database
- A directory of water and sanitation actors

Activities

- Workshops and study tours in France and Lebanon
- Working groups
- Supporting cooperation projects

An open network for all in France and Lebanon!
